SERVICE MANAGERS, PARTS MANAGERS

SUBJECT: **UPDATE** - SAFETY RECALL (SPECIAL SERVICE CAMPAIGN) – 70F
(TOYOTA CAMRY ALL WEATHER FLOOR MAT ACCESSORY FOR 2007 AND EARLY
2008 MODEL YEAR VEHICLES)

In late September, 2007, Toyota mailed a preliminary owner notification regarding the Safety Recall (Special Service Campaign) on certain optional Toyota Camry All Weather Floor Mats (floor mats constructed from heavy duty rubber). The preliminary notification advised owners that Toyota was designing a replacement Toyota Camry All Weather Floor Mat and that another notice will be mailed to them once the new mat was available.

In late November, 2007, Toyota will begin sending a Safety Recall notification to inform owners the newly designed replacement All Weather Floor Mat for the driver's seating position is now available. The recall campaign involves approximately 24,500 optional Toyota Camry All Weather Floor Mats designed specifically for the driver's seating position in certain 2007 and early 2008 model year vehicles.

The optional Toyota Camry All Weather Floor Mat includes two grommet holes in the All Weather Floor Mat and retaining hooks (clips) to secure the mat to the vehicle's carpet. Toyota has received reports that if the optional Toyota Camry All Weather Floor Mat (either by itself or if it is placed on top of an existing carpeted floor mat) is not secured by the retaining hooks (clips), the mat can move forward and interfere with the accelerator pedal returning to the idle position. ***If the mat is properly secured, it will not interfere with the accelerator pedal.***

However, to assure that over-the-counter accessory sales customers are notified, owners of 2007 and early 2008 model year Toyota Camry vehicles that did not provide a return postcard (provided in earlier mailing), indicating their vehicle is not equipped with the optional Toyota All Weather Floor Mats, will receive a notification letter.

2. **Dealer/Owner Lists**

Dealer part sales lists (to be used for reference in ordering parts) for SSC 70F have been distributed to each dealership's Service and Parts Managers. These lists are based upon total parts sales to your dealership. Based upon our records, a dealership which did not sell any Toyota All Weather Floor Mats will receive a report indicating so.

**SSC 70F – TOYOTA CAMRY ALL WEATHER FLOOR MAT ACCESSORY
FOR 2007 AND EARLY 2008 MODEL YEAR VEHICLES
SAFETY RECALL NOTICE**

Dear Toyota Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in the *optional* Toyota Camry All Weather Floor Mat (floor mat constructed from heavy duty rubber) designed specifically for certain 2007 and early 2008 model year Camry vehicles. ***We are sending you this notice in the event you purchased this accessory.***

What is the condition?

The optional Toyota Camry All Weather Floor Mat is specifically engineered and manufactured for Camry vehicles. This includes two grommet holes in the All Weather Floor Mat and retaining hooks (clips) to secure the mat to the vehicle's carpet. Toyota has received reports that if the optional Toyota Camry All Weather Floor Mat (either by itself or if it is placed on top of an existing carpeted floor mat) is not secured by the retaining hooks (clips), the mat can move forward and interfere with the accelerator pedal returning to the idle position. If this condition occurs, in the worst case, it may increase the possibility of a crash.

What will Toyota do?

Any Toyota dealer will replace the original driver's seating position All Weather Floor Mat with a newly designed one at **NO CHARGE** to you.

What should you do?

This is an Important Safety Recall

As we indicated to you previously, we required time to prepare the necessary parts. Toyota is pleased to inform you that the replacement driver's seating position All Weather Floor Mat for your vehicle is now ready. Please contact your authorized Toyota dealer to make an appointment to replace the original driver's seating position All Weather Floor Mat as soon as possible. The replacement will take approximately 10 minutes. However, depending upon the dealer's work schedule, it may be necessary to make your vehicle available for a longer period of time. **Until the replacement All Weather Floor Mat for the driver's seating position is replaced, we request your assistance in regularly verifying the floor mat is properly secured using the retaining hooks (clips) provided. If the mat is properly secured, it will not interfere with the accelerator pedal. More than one floor mat should never be used in the driver's seating position, as the retaining hooks (clips) are designed to accommodate only one floor mat at a time.**

If your vehicle does not have the Toyota Camry All Weather Floor Mats (please see the diagram for the specific mat involved), it is **NOT** involved in this recall. Please return the enclosed postcard to notify us that you do not have the Toyota Camry All Weather Floor Mat accessory, so we may remove your name and address information from future mailings regarding this issue. However, during our investigation, it was noted that floor mat interference is possible in any vehicle with any combination of floor mats. Therefore, if you

utilize non-Toyota floor mats, ***please make sure they are also properly secured using the appropriate retention device and do not place them on top of another floor mat.***

If you no longer own the vehicle, please indicate so on the enclosed postage-paid form, providing us with the name and address of the new owner if possible.

What if you experience accelerator pedal interference prior to your appointment?

Each circumstance may vary, and drivers must use their best judgment, but Toyota is providing the following instructions and warnings if the All Weather Floor Mat should interfere with the accelerator pedal:

- If it is possible and safe to do so, pull back the floor mat as it may dislodge the All Weather Floor Mat from the accelerator pedal.
- If you need to stop the vehicle immediately, firmly step on the brake pedal with both feet. Do not pump the brake pedal as it will deplete the vacuum utilized for the power brake assist.
- In a vehicle equipped with the Engine Start/Stop button, if you can safely stop the vehicle, firmly hold down the Engine Start/Stop button for at least three seconds to turn off the engine. Do not tap the Engine Start/Stop button. However, by turning off the engine, you will lose both power brake assist and power steering assist.
- In a traditional key ignition vehicle, if you can safely stop the vehicle, turn the ignition key to the ACC position. Again, by turning the key to the ACC position, you will lose both power brake assist and power steering assist. **Do not remove the key from the ignition.** If you remove the key from the ignition, the steering wheel will lock.

What if you have other questions?

Your local Toyota dealer will be more than happy to answer any of your questions. If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, Saturday 7:00 am through 4:00 pm Pacific Standard Time.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Auto Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.
